der Hohen Domkirche Köln

General information about guided tours of the interior of Cologne Cathedral

All tours inside the Cologne Cathedral require registration!

They may only be carried out by authorized or registered cathedral guides. Private individuals, institutions, school classes or travel companies can book a group tour of Cologne Cathedral with the DOMFORUM. The group size is limited to a maximum of 20 people per group.

A group management system is provided to the guided groups – if they do not want to use their own. A flat rate for the group management systems is charged per group. Children and youth groups receive the group leadership systems free of charge. Children's groups only have to use a group management system from the 5th school year onwards.

The group leadership systems are audio radio systems with a microphone for the leaders and receivers for the participants. The aim is, on the one hand, to acoustically calm the church interior, which should help to protect the interests of groups of visitors and believers alike. On the other hand, this technology enables participants to better understand the explanations on site in the cathedral.

In addition to the flat rate for the group management system, a cathedral flat rate is charged, which, in addition to the processing flat rate, includes a cathedral fee for the maintenance of the cathedral.

If there are capacities, smaller groups (up to a maximum of 8 people) can also join the public guided tours of the DOMFORUM.
